Mission 6	Perceived Motivation:	
Referral Summary:	Number of students involved: _____ Number of referrals included: _____	Is the problem best addressed through systems or with individual students: <input type="checkbox"/> Systems <input type="checkbox"/> Students
Precise Problem Statement:	A. Black students are being defiant in the classroom, especially at morning bell because they want peer attention B. One specific vulnerable decision point (VDP): Black students are more likely to receive a referral for defiance in the classroom, especially at the morning bell and staff perceive the students to be obtaining peer attention. C. Staff are over-referring students of color for defiance in the classroom across the day (especially at the 8am morning bell) and they think the behavior is related to obtaining peer attention.	
Choose 1		

<p>Mission 7 Goal: Choose 1</p>	<p>A. Staff will provide two clear, neutrally delivered reminders for transitions and use of respectful language prior to referring a student for defiance. Referral rates for this VDP will decrease to one or fewer per month by the end of the school year.</p> <p>B. Students will decrease defiant behavior by 65% by the end of the school year.</p> <p>C. Staff will discontinue writing referrals for defiance.</p>
